

Environmental Management Policy

As a global CDMO company, LOTTE BIOLOGICS regards sustainable development and environmental protection as its core values.

**To minimize our environmental impact,
we declare the following Environmental Management Policy:**

- ▶ **We will minimize our environmental impact by prioritizing environmental protection and sustainability in all management activities.**
- ▶ **We will strive for the proactive prevention of environmental pollution by complying with domestic and international environmental laws and regulations, and by establishing and enforcing internal environmental standards that are stricter than legal requirements.**
- ▶ **We will minimize greenhouse gas emissions and the generation of environmental pollutants by conserving resources and energy, using eco-friendly raw materials, and continuously improving our processes.**
- ▶ **We will establish plans to minimize our environmental impact and build an optimal environmental management system through periodic inspections and improvements.**
